## Newsletter

*Found it useful* **100%**

# Newsletter

## Everyone found it useful

- Informative, well-organized, & professional
- Turbidity calibration & DETAW updates
- DSM2 Version 8
- Application of DSM2 to BDCP
- DSM2UG People

# Newsletter

## Suggestions for improvement

- “No... it was perfect!”
- “Writings should be concise and a summary should be provided to benefit the readers time.”
- “Nope.”

# Preferred Format

3 meetings 1 newsletter

2 meetings 2 Newsletters

82%

18%

*“The newsletter format provides a better long term record of information than my meeting notes, but in some regards seeing presentations and interaction between people is memorable. So I like both the newsletters and meetings.”*

# Suggested Topics for Future Meetings

- Updates of DSM2-related enhancements and applications by both DWR and other users
- Lessons learned from BDCP ; 'Tips' & DSM2 features
- A hands-on workshop for new products and skills that can benefit DSM2 modeling
- Webex
- Distribute calendar invites at the beginning of the year
- DSM2 source code release

# Suggested Topics for Future Meetings

Discuss possible collaboration

- GIS integration

- Data warehouse

- Tidal datum

- New pre- and post- processing tools

- New visualization tools

- Strategic model development

## Looking ahead...

- Three regular meetings plus one newsletter
- Webex option for meetings
- Meeting requests for 2011 will be emailed out next week

**Thank You!**
